

2035 Regional Long Range Transportation Plan for Southeast Florida

Corridors of Regional Significance – Learn More!

What is a Corridor of Regional Significance?

A Corridor of Regional Significance is a roadway within the tri-county area that meets one of the following criteria:

Regional Corridor Facility Criteria

Facility	Functional Classification
Regional Interstate and Expressway Facilities	Urban or Rural Principal Arterials – Interstate and Expressway
Major Regional Facilities	Urban or Rural Principal Arterials – Others that Cross County Lines
Regional Connector Facilities	Urban or Rural Principal Arterials - with Two or more Connections to Regional Interstate and Expressway Facilities
SIS Rail Corridors	Rail Corridors Identified by FDOT as a portion of the Florida Strategic Intermodal System (SIS)

The definition of Regional Corridors also includes transit centers/hubs and transit infrastructure along Regional Corridors.

The Corridors of Regional Significance is the transportation network that the 2035 Regional Long Range Transportation Plan will focus on.

How and when were they developed?

In 2006, the Corridors of Regional Significance were initially developed by the Regional Long Range Transportation Plan Committee and thereafter approved by the Southeast Florida Transportation Council (SEFTC) and the MPO Boards. They were selected based on the criteria listed above.

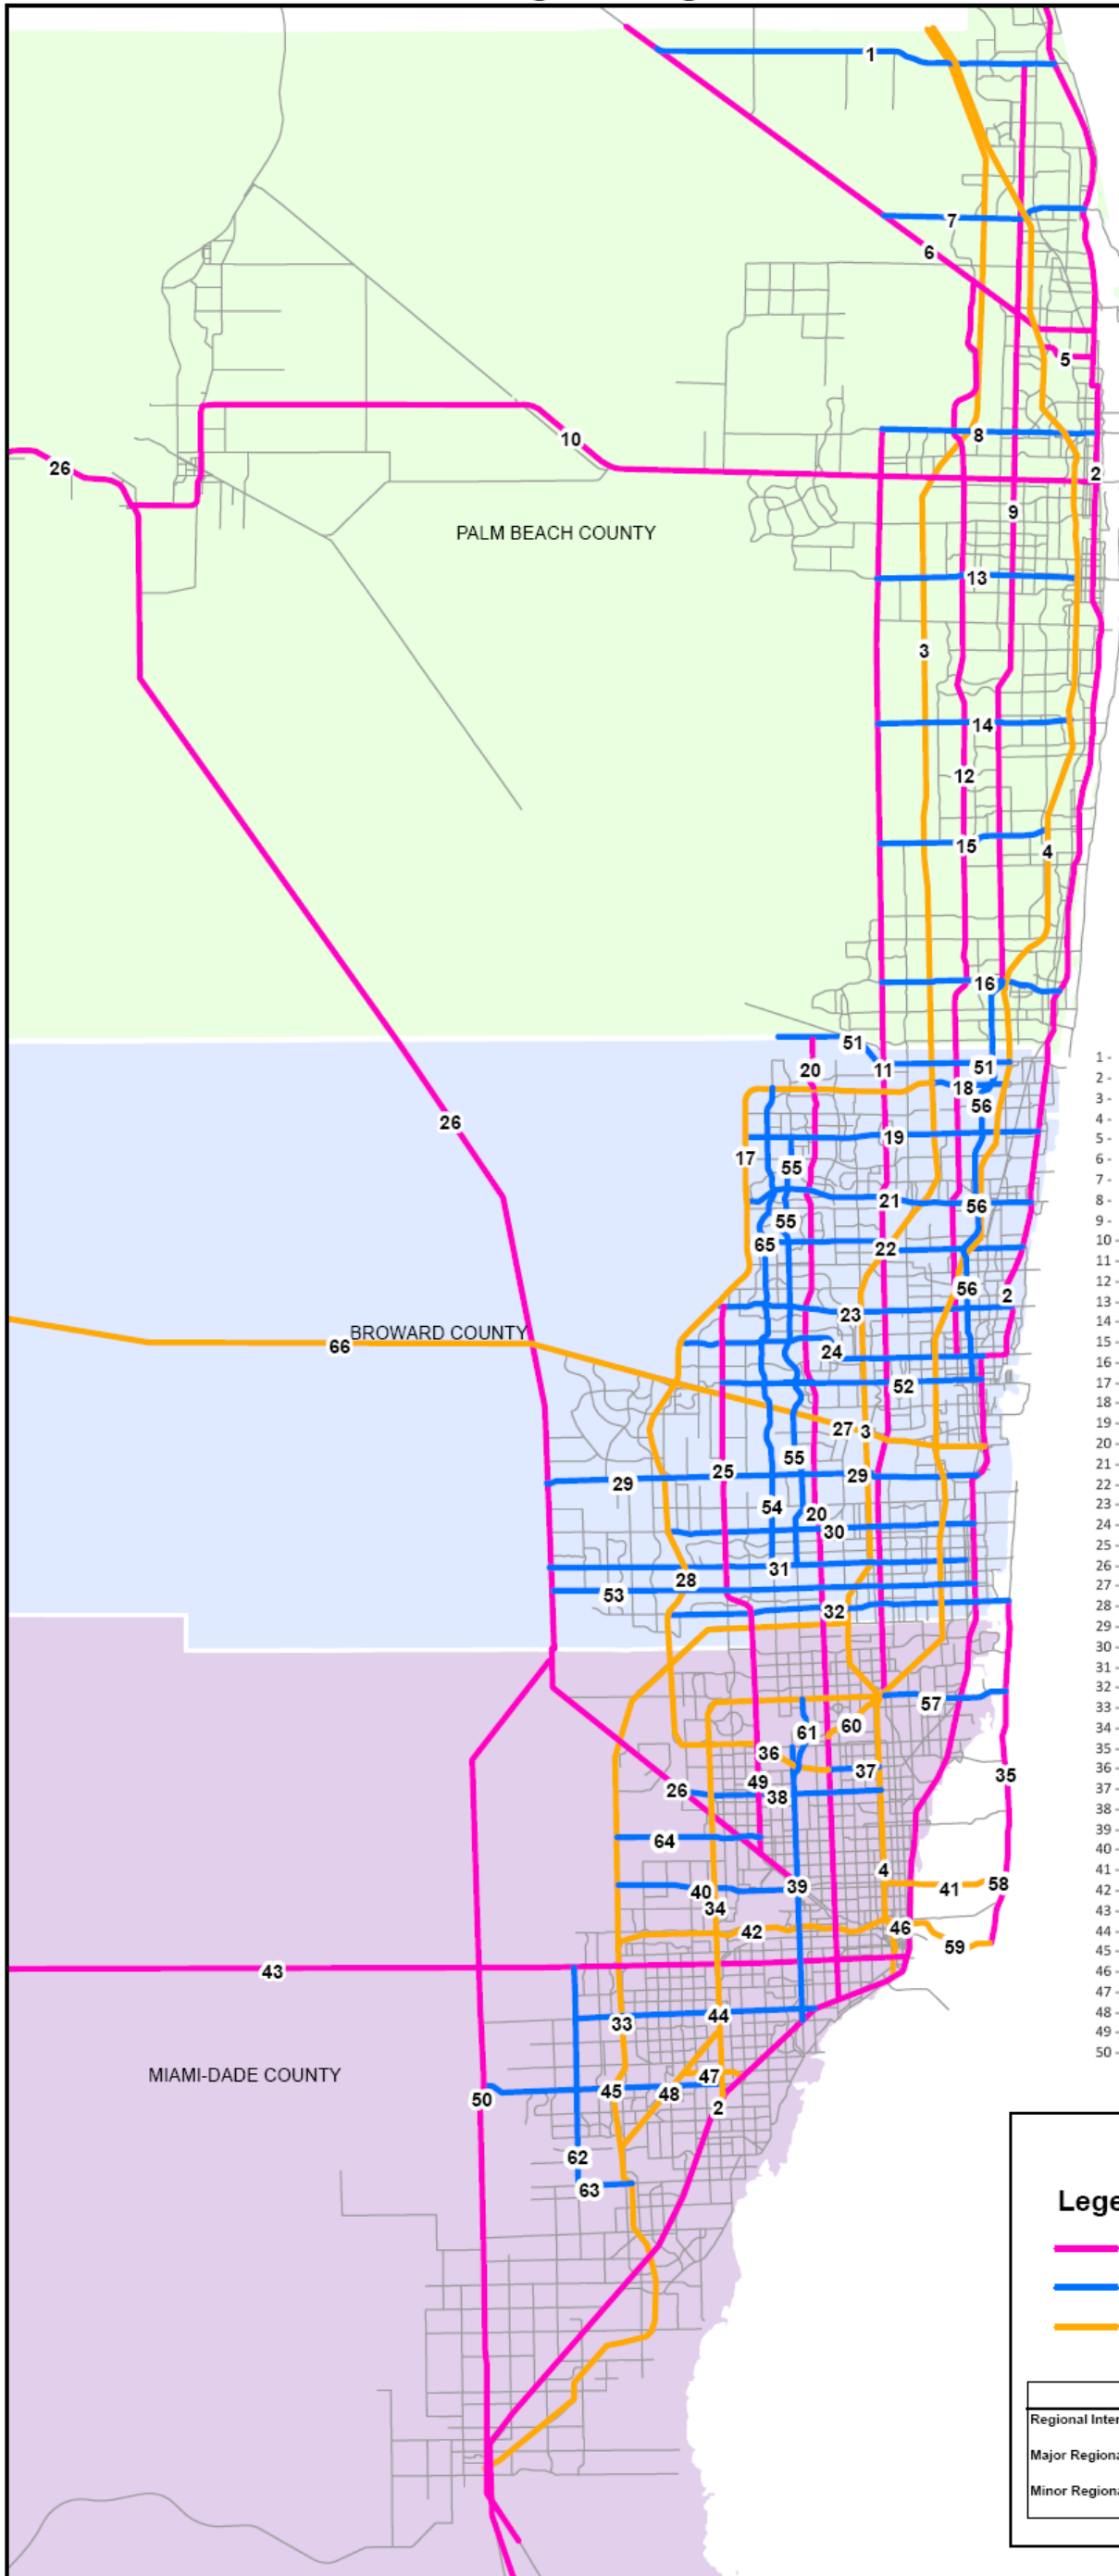

How many Regional Corridors have been identified throughout the tri-county area?

The regional network contains 66 regional corridors. A map is available at your local public workshops or on the SEFTC website at www.SEFTC.org.

SEFTC - Southeast Florida Transportation Council

Palm Beach, Broward and Miami Dade Counties
